REFERENCE LETTER INCLUDING VALUES OF WORK COMPLETED – GENESIS FLOORING SPECIALISTS

We are a Corporate Interior Design business and have worked with Leon van der Merwe and his team for the past 16 years, ever since we opened. From the very first small projects that we undertook to some extremely large corporate clients, Leon has held our hands along this path.

We have a very trusting relationship with him and his team and work very closely with Genesis Flooring Specialists on a regular basis. It does not matter how large or small, Leon always casts his critical eye on the work concerned and we feel very comfortable in his hands to get the work completed efficiently and on time.

We confirm that in the last 6 years we have done approximately R 2 500 000 including VAT, worth of business with Genesis Flooring Specialists.

I would have no hesitation in recommending them for any flooring work for large projects or small domestic installations.

Yours sincerely

NICOLE MAGUIRE
